## **DETAILED ACTION**

### **Summary**

On July 6, 2005, an Office Action was sent to the Applicant rejecting claims 1-18.  
On October 6, 2005, the Applicant responded by amending claim 1.

### ***Claim Objections***

The objections have been withdrawn,

### ***Election/Restrictions***

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, drawn to a method of creating options for an asset, classified in class 705, subclass 36r.
- II. Claims 15-18, drawn to method of pricing box options for an asset, classified in class 705, subclass 35.

The inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct from each other if they are shown to be separately usable. In the instant case, invention I has separate utility such as being used for the creation of any type of option without specified parameters. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

Art Unit: 3624

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
